

YEARS 4-7

MODEL UNITED NATIONS (MUN)

Learn about diplomacy, international relations and the United Nations by representing a country and developing arguments you can raise during a debate.

The aim of the club is to develop debating skills as practised in the United Nations. This allows students to enhance their public speaking capabilities, build their confidence and enrich their knowledge of current affairs. Participation in MUN conferences allows students to apply these skills as well as acquire a greater understanding of other cultures. They increase their awareness of pressing international issues which adds value to their profile when applying to university.

For more information, please see Mr. Panayiota Mallas, Mr. Christoulla Mosfiliotis and Ms. Sophia Milliosia.
